

The release of the report "Institutional Innovation to Strengthen Urban Local Governments in India: The case of Centre for Heritage, Environment and Development (C-HED), Kochi Municipal Corporation, Kerala" on September 22, 2020 by the Mayor of Kochi was indeed a moment of pride for us in the Centre for Heritage, Environment and Development. We would like to extend our profound gratitude to GIZ SUD-SC team for investing their valuable resources in bringing out this well researched and documented report. The project is a major milestone in the history of C-HED, Kochi Municipal Corporation and we are really happy to cooperate with GIZ for Kochi's sustainable development.
